

Middle Kuskokwim Electric Cooperative, Inc.
Cost of Power (COPA) /Small Facility Power Purchase Rate (SFPPR)
Memorandum

Date: **May 23, 2022**

Middle Kuskokwim Electric Cooperative, Inc.	Utility File No. TA163-343	Date Filed: April 15, 2022
--	--------------------------------------	--------------------------------------

FILING SUMMARY			
Statutory Deadline: June 3, 2022	Tariff Sheets recommended for approval: Tariff Sheet No. 21.3 Tariff Sheet No. 23	Filed on April 15, 2022 Filed on April 15, 2022	Staff Recommended Effective Date: June 3, 2022
Side-by-side Tariff Sheets attached as Appendix 4			

COPA SUMMARY				
Prior Commission Determination TA Number and Effective Date	Prior Commission Determination (\$/kWh)	Staff Recommended Determination (\$/kWh)	Change (\$/kWh)	
TA160-343 3/14/2022	\$0.2451	\$0.5862	\$0.3411	

SFPPR SUMMARY				
Prior Commission Determination TA Number and Effective Date	Prior Commission Determination (\$/kWh)	Staff Recommended Determination (\$/kWh)	Change (\$/kWh)	
TA160-343 3/14/2022	\$0.3049	\$0.3289	\$0.0240	

PCE SUMMARY				
Prior Commission Determination TA Number and Effective Date	Prior Commission Determination (\$/kWh)	Staff Recommended Determination (\$/kWh)	Change (\$/kWh)	
U-21-019(6) 1/1/2022	\$0.7597	\$0.7597	\$0.0000	

Signed: Heather Jesse Utility Tariff Analyst
Heather Jesse

Wilson		JWW		

Special Instructions to Staff:

* If this column is initialed, Staff will contact the Commissioner for the statement. Otherwise, dissent will be noted at the close of the By Direction Letter or Order.

Middle Kuskokwim Electric Cooperative, Inc.
Cost of Power (COPA) /Small Facility Power Purchase Rate (SFPPR)
Memorandum

To: Robert M. Pickett, Chairman
Robert A. Doyle
Keith Kurber II
Daniel A. Sullivan
Janis W. Wilson

Date: May 23, 2022

File: TA163-343

Utility: MKEC

From: Heather Jesse

Subject: COPA and SFPPR

COPA Comments:

Staff reviewed this tariff filing to ensure compliance with applicable regulations (3 AAC 48.200-3 AAC 48.430). Staff also reviewed proposed tariff sheets to ensure the stated text is easily understood, and the tariff provisions clearly and comprehensively describe and address the situation to which the tariff provision applies. When approving the tariff filing, the Commission must be assured that proposed rates and services are just, reasonable, and non-discriminatory. Proposed revisions to the COPA surcharge are reviewed under 3 AAC 52.504, which requires information supporting entries in the balancing account for the historical period, and support for projections for the future period.

Staff Notes:

Appendix 2 shows the estimated fuel costs decreased from \$79,005.17 to \$66,944.79, the balancing account balance increased from \$(15,485.71) to \$52,370.34, and the estimated retail sales decreased from 259,108 to 203,536. The downward pressure from the decrease in estimated fuel costs is offset by the upward pressure from the increase in the balancing account balance and the decrease in estimated retail sales. The result is an increase of MKEC's COPA from \$0.2451/kWh to \$0.5862/kWh.

Staff Recommendation:

The Commission should approve Tariff Sheet No. 21.3, filed April 15, 2022, by Middle Kuskokwim Electric Cooperative, Inc. in TA163-343. The effective date of the tariff sheet should be June 3, 2022.

SFPPR Comments:

MKEC's tariff provides that the rate at which power will be purchased from qualifying facilities with a nameplate capacity of 100kW or less is determined from the sum of fuel gallons consumed for the same period used by the utility to project costs and sales in its COPA, updated by subsequent fuel costs, and divided by the number of kWhs sold for the same time period.

Staff Notes:

MKEC proposes an SFPPR of \$0.3289/kWh, which is an increase of \$0.0024/kWh from the previously approved SFPPR of \$0.3049/kWh.

Staff Recommendation:

The Commission should approve Tariff Sheet No. 23, filed April 15, 2022, by Middle Kuskokwim Electric Cooperative, Inc. with TA163-343. The effective date of the tariff sheet should be June 3, 2022.

PCE Comments:

Proposed adjustments to PCE amounts are evaluated under 3 AAC 52.600-690. Each participating regulated electric utility is required to submit revised PCE amounts in conjunction with COPA surcharge adjustments. The utility must provide information supporting the request for the PCE amount revision. Adjustments will be made to the PCE amounts if the utility does not achieve the generation efficiency and line loss standards set out in 3 AAC 52.620. If a utility fails to meet the generation efficiency standards (kWh/gallon), Staff will impute the number of gallons that should have been consumed. Because 3 AAC 52.610(f) provides no guidance on the method of imputing the number of gallons that should have been consumed, Staff uses the method prescribed for non-regulated utilities in 3 AAC 52.610(g)(1)(B). Staff reviews the line loss for each reported month to determine if the 12% line loss standard has been met; if it has not, Staff reviews the annual line loss. If Staff determines that both the monthly and annual line loss standards have not been met Staff will impute the number of kWh that should have been sold. The resulting imputed sales and/or generation is then used to calculate an adjusted balancing account balance which is used in determining the total fuel power costs used in the calculation of the PCE amounts.

Staff Notes:

Staff notes that MKEC met the line loss and generation efficiency standards for October 2021 through March 2022. Appendix 3 shows that the adjustment has no effect on the PCE amount, which remains at the statutory maximum of \$0.7597/kWh.

Staff Recommendation:

Middle Kuskokwim Electric Cooperative, Inc. did not file to reflect the change therefore staff is not making a recommendation to change.

SMALL FACILITY POWER PURCHASE RATE

This tariff is applicable to the purchase of energy from a Qualifying Facility. A Qualifying Facility is a co-generation facility or a small power production facility which meets the criteria prescribed by Part 292, Subpart B of the Federal Energy Regulatory Commission Regulations 18 CFR 292.101(b)(1), as effective April 1, 2015, including size, fuel use, ownership, and efficiency standards.

The rate at which the Utility will purchase energy from Qualifying Facilities with a design capacity of 100 kW or less is calculated based upon the number of gallons of diesel consumed in the historical period used in the Cost of Power Adjustment calculation, updated to reflect the current price of the Utility's fuel inventory, divided by the number of kWh sold in the historical period used in the Cost of Power Adjustment calculation.

A. Number of gallons consumed (historical period)	28,771	gallons	
B. Current Fuel Price	\$ 2.7460	/gallon	
C. Total Fuel Costs	(A x B) \$ 79,005.17		R
D. kWh sold (historical period)	259,108	kWh	
E. Small Facility Power Purchase Rate	(C / D) \$ 0.3049	kWh	I
